SCHURRTOP ANGUS & CHAROLAIS RANCH

Farnam and Maywood, Nebraska

Welcome to our spring yearling bull sale where we will offer our February and March born bulls. We would like to say thank you in advance to the many friends and customers for your support over the years. We are a family operation and go to work everyday raising cattle just like you do. Our one main goal and passion in this business is to have the most profitable bull customers in the industry, with the least stress and time consuming management problems of all.

In this sale you will find high performance bulls with proven feed efficient genetics that have all the numbers and data to back it all up and fit any program. In addition to that, you will find bulls with as much natural muscle, body shape, body width and doability to naturally hold up, thrive and excel even in tough environments or on poor feedstuffs, just as their daughters will do. For over 40 years we've been feed efficiency testing and now with new technological advances, we can select for low Residual Feed Intake proven genetics. We have added this as an extra, but main criteria, that you will find in very few operations. Feed and pasture costs represent 65-70% of the cost of production in a cattle operation. It has been proven time and again we can select for lower maintenance costs and less inputs per day/per head with no negative effects on any other traits. It is independent of frame, mature size, and reproductive traits. In fact, I will contend that lower RFI or lower maintenance cattle just plain "do better" and thrive when the going gets tough. Any successful business person knows that controlling costs is a major part of profitability over the long haul and this is a proven way to do it. Most operations can improve feed efficiency 10-15% (easily up to \$200/pair and through the feedyard difference). This equates to huge dollars per head, more cows on less acres and much bigger profits in the feedyard. It's the kind of stuff that pays for a ranch or a feedyard.

Our industry seems to put a lot of importance on actual weaning weights. While they are an extremely important part of assessing growth, they are mostly limited by the resources available to the cow and calf up until weaning. The weaning EPD somewhat describes the amount of growth available in the genetics. I believe by selecting for more efficiency, you will ultimately put far more dollars in your pocket rather than inefficiently feeding for more weaning growth or trying to produce more milk than your resources can handle, while still producing an efficient high growth calf at weaning time.

There are also many non EPD criteria that affect the bottom line--including fertility, doability, muscle shape, udders, feet and legs, etc. We were also one of the pioneers in carcass testing and we've utilized this data for over 50 years. It is all bred into the cowherd. There are lots of choices in this industry. We want your family and operation to thrive and know you can buy from the first to the last bull in this offering with confidence.

As always, visitors are always welcome. The bulls are located 3 1/2 miles west of the Maywood junction. Whether you come to buy or look for next year, we appreciate your interest in our program and we would enjoy talking to you about the bulls or just discussing the beef business. Our success depends upon your success, and we expect the cattle to perform. The usual Schurrtop guarantee goes with them and we stand behind them 100%.

AUCTIONEER - CODY LOWDERMAN

SALE DAY PHONE: (308) 345-1493

GENERAL INFORMATION

ACCOMMODATIONS: There are a number of motels in McCook. Cobblestone Hotel & Suites and Holiday Inn Express are located on Highways 6, 34 and 83. Cobblestone 308-777-2000. Holiday Inn Express 308-345-4505.

AIRPORT: McCook has a municipal Airport capable of landing most planes. Call us and we will be happy to pick you up.

THE BULLS WILL SELL BY LIVE AUCTION AND RUN THROUGH THE SALE RING.

SIGHT UNSEEN PURCHASES: Every year we have some people who cannot attend the sale. We would be happy to assist in making your sight unseen purchases and/or we have several very qualified order buyers available to be on the phone or in the seats buying for you. As always we have a sight unseen satisfaction guarantee. If you don't like them when we bring them to you, then you don't own them.

DELIVERY: Free Bull Delivery within 300 miles on purchases of \$4,000 or more, and assistance on all deliveries.

WE RESERVE THE RIGHT TO RETAIN A BREEDING INTEREST IN SOME OF THE BULLS SELLING. WE MAY OR MAY NOT USE THESE BULLS; HOWEVER, ALL SEMEN INTERESTS ARE REVENUE SHARING. ANNOUNCEMENTS WILL BE MADE IN THE CATALOG AND/OR SALE DAY. ON THE BULLS SELLING WHERE FULL POSSESSION IS SOLD, YOU TAKE THE BULL HOME AND USE HIM JUST LIKE ANY OTHER BULL THAT YOU HAVE. WHEN YOU DECIDE TO SELL HIM FOR SALVAGE, THE BUYER RECEIVES FULL SALVAGE VALUE. SHOULD WE WANT TO COLLECT SEMEN AT A LATER DATE, IT WILL BE AT THE BUYER'S CONVENIENCE.

GUARANTEE: Schurrtop guarantees that all bulls sold in this sale are fertile to the best of our knowledge and will have satisfactory semen quality to breed cows by natural service during the breeding season. The breeding season is defined as 60 days after the bull is turned into the breeding pasture. Schurrtop reserves the right on non-satisfactory semen evaluation rechecks performed by the buyer to have a professional semen evaluation by an evaluator of Schurrtop's choice. This guarantee does not include mortality, a life threatening injury, freeze damage due to winter elements, or mismanagement. We will not replace a dead animal if it is killed or has to be humanely destroyed for any reason. A Liberty Mutual representative will be available sale day to insure your purchases for mortality, the cost is 4% for 6 months coverage. Under no circumstance shall Schurrtop be liable for more than the original purchase price of the bull, minimum salvage value will be valued at \$2000.

GUARANTEE continued in next column

This guarantee for Schurrtop Angus & Charolais bulls is in addition to the modified suggested terms and conditions of sale from the American Angus Association, which also apply. These terms and conditions are listed on the inside back cover of the catalog. **Claims must be received prior to September 1, 2025.**

* See page 32 for more info.

INSURANCE: A Liberty Mutual representative will be available sale day to insure your purchases for mortality, the cost is 4% for 6 months coverage.

* **First Year Breeding Coverage, see page 32**

SEMEN INTEREST: Retaining 1/3 Semen Revenue Sharing Interest in all the bulls selling, unless otherwise noted.

CHAROLAIS LOTS: We have inspected all of the polled bulls to see if they are smooth polled or polled/scurred and this information is reported on each lot. However, Schurrtop cannot guarantee that a smooth polled bull will not develop scurs at a later date.

CARCASS ULTRASOUND INFORMATION: We will measure the bulls using ultrasound for carcass traits and this information will be available sale day, if available. Ultrasights Certified Lab was used to interpret both the Angus and Charolais scans.

UPDATED INFORMATION: Scrotal measurements and final weights will be provided sale day, if available. Announcements during the sale will supersede information presented in this catalog.

PERFORMANCE INFORMATION: The EPDs on the sale cattle are from the Spring of 2025. The EPDs in the catalog are the most current available and will be more current than what will be on your registration paper if you do not ask for your papers to be transferred to you.

REGISTRATION TRANSFER: If you would like your registration papers transferred to you, please notify the clerk at time of settlement. Please leave your membership number with the clerk on the settlement sheet.

HERD HEALTH: All bulls are vaccinated for IBR, BRSV, P13, BVD, 7-Way - haemophilus and are poured with Ivomec. They will have proper health papers for interstate shipment sale day except for Colorado buyers. Due to recently adopted more stringent state health requirements, it will take 3 plus days to run the extra tests necessary.

Arthrogyrosis Multiplex (AM) and (NH)—all cattle with known descendants that are carriers of the AM or NH gene have been tested free of the defect.

OS - Osteopetrosis—All known descendants that are carriers have been tested.

SALE ORDER: We will start the sale with approximately one-half of the Angus bulls followed by the Charolais bulls and so on. The bulls are cataloged in no particular order.

RIGHTS AND OBLIGATIONS

1. The above terms and conditions of sale shall constitute a contract between the buyer and seller of each animal and shall be equally binding upon both. Each sale or resale of an animal constitutes a separate transaction.
2. Neither Schurrtop Ranch, the sale manager, nor any other person connected with the management of the sale, assumes any liability, legal or otherwise.

Jet Black is an exciting all around total performance sire of true quality. He is an outcross pedigree for us and his sons have proven to not only dominate feed tests, but also have done very well in residual feed intake testing. His progeny are extra long framed, powerful, fast growing, and eye catching. His daughters in production are model Angus females with nice udders and are very productive.

Schurrtop Angus & Charolais

EXPONENTIAL FEED EFFICIENCY FACTS

Which bull offers you over \$ 20,000 in PROGENY PROFIT (or loss)

Bull A: ADG 3.37 Dry Matter Intake 28.73 lbs/day
Feed to Gain: 8.28 lbs of feed per lb of gain on high roughage diet. RFI +3.90

Bull B: ADG 3.26 Dry Matter Intake 22.45 lbs/day
Feed to Gain: 6.90 lbs of feed per lb of gain on high roughage diet. RFI -2.77

- Both Bulls come off of the efficiency test at 1,100 lbs
- Bull B is eating 6.28 pounds less dry matter feed per day
 - A Minimum of \$ 80 - \$ 120 / head savings in the feedlot
 - \$ 60 - \$ 80 / year savings on daughters feed input cost, without impacting performance

SIMPLE MATH - Figuring 4 Calf Crops

- 60 Steers & 25 Heifers to the feedlot X \$ 80 / head = \$ 6,800
- 35 Heifers retained in the herd x 8 years x \$ 60 / head = \$ 16,800

\$ 23,600

PLUS - for every 35 daughters you retain out of **Bull A** you can run 45 daughters of **Bull B** on exactly the same amount of grass & inputs with all their calves weighing the same

10 cows with free feed
x 95% calf crop x 8 years x \$ 400 each = \$ 30,400

TOTAL = \$ 54,000

This is conservative & does not consider the additional efficiency of these more efficient cows' calves through the feedyard.

IT'S EXPONENTIAL

RFI (residual feed intake) is the measure of feed intake for maintenance & production

- 70% of Yearly Cow Costs are due to feed & grass
- of this 70-75% are maintenance requirements
- Selecting for RFI can improve feed intake efficiency by up to 25%
- Better RFI means more drought resistant females, improved fertility & longevity, while not compromising weaning weight
- Research has shown the most efficient 1/3 of your cows will consume up to 20% less forage than the least efficient 1/3 of your cows
- Size doesn't matter- just because a cow is small or fat doesn't mean she is more efficient in her feed utilization. It just means she is small or fat

→ **Selecting for RFI is about the cow herd, the ranch and the rancher**

BOTTOM LINE- There is no more powerful profit tool for the cow/calf, feedlot, or stocker producer, than when you **combine Average Daily Gain & RFI**

- **What's it worth? - From birth to slaughter = up to \$ 200 in savings /head**

IT'S EXPONENTIAL

RFI PROGENY PROVEN

Dan Dorn - Decatur County Feedyard says- " A group of McDonnell Ranch steers weighed 890 lbs coming off grass in June and finished at 1,450 lbs. They gained 5.0 lbs/day and converted 4.81 lbs of feed/lb of gain. This set a new record for heavy steers."

Schurrtop Angus & Charolais

The biggest additional independent ongoing profit center for a cow/calf enterprise is a feed efficient cowherd. The results are exponential for additional retained profit. Efficiency is independent of market forces and outside factors. And, if you retain ownership of your calves the results multiply in your favor.

Beefmaker is becoming the new standard for true muscle, performance, base width and phenomenal doability. He was the high selling bull in our 2021 sale to Honeyman Charolais. He weaned at 784/126, scanned a ribeye of 19.37/126 (which is 1.59 square inches of ribeye per 100 pounds of live weight) and this combined with a marbling scan of 3.36/123. He is the largest ribeye EPD bull of the breed with plenty of marbling genetics. He also gained at the top and is providing that same level of performance to his offspring. His mother and grandmother are perfect uddered, true performance females at the top of the breed. He has a big future in front of him.

Big Step is the next generation of total performance, calving ease, and carcass genetics. As thick, deep, wide, and athletic as you can make one. His dam is a tremendous producer with a perfect udder. He ranks in the top percentile of many relevant traits in the breed. He started out at just 78 pounds and ratioed 125 at weaning, 115 ribeye and 165 marbling. He's extra gentle with amazing doability in an eye catching package. He has a huge future in front of him.

The high selling bull in our 2022 sale to Wienk Charolais. The Husker progeny are an impressive sire group. Extra muscle, body shape, length, and eye catching quality. They are consistent in type and kind; and uniformly powerful and shapely, correct and complete from end to end. He is a maternal brother to Schurrtop Beefmaker; and both their dam and granddam are elite females in the breed. Powerful phenotype with the numbers to back it all up.

Few sires can match the combination of calving ease, growth, gain and carcass merit of Hi-Line while delivering it in an extremely attractive package. He has a negative birth EPD while ranking in the Top 6% of the breed for Weaning, 25% Yearling, 20% Total Maternal, 1% Ribeye, 4% Marbling, and 6% TSI. He started at just 86 pounds at birth from a picture perfect, highly productive dam, weaned at 770/118, scanned a 19.36 inch ribeye ratio 122 and combined that with an IMF of 3.28/112. He is making an impact through his progeny.

Channel was a standout of his calf crop with calving ease, growth and top marbling and ribeye genetics. His dam has been a top consistent producer. His progeny prove his value with their consistency and power. He is a unique genetic package that is light birth weight and is used on first calf heifers; yet will grow with the best in the breed while still adding extra marbling and muscle.

WEIGHTS BW: 86 AWW: 748/112 AYW: 1370/109 RIBEYE: 20.8

The top selling, high performing and phenotypic standout of the 2011 calf crop that scanned the largest ribeye ever produced at Schurrtop. Choice and his brothers and sons are the 6 out of 7 biggest ribeye area bulls of the breed with positive marbling. His dam is a top producing, perfect uddered broody female with a shorter than average gestation length. He has a huge, thick, butterfly top with a massive rump and rear quarter. Plus, he has a wide base, natural curvature to his rib shape and super fleshing ability with the natural feed efficient phenotype. From birth to carcass he is a home run. Owned with Eaton Charolais.

WORLD RECORD RESULTS!

Schurrtop Bull Customers Achieved These Results —

Schurrtop Efficiency Works!

Beef Empire Days • Live & Carcass Show
 Grand Champion Overall Heifer &
 Reserve Grand Champion Overall Steer

Calf Fed Steers — Gain: 4.88 lbs/Day — Feed Efficiency: 4.54 lbs. feed/lb. Gain
Gain is HIGHER than #Feed/#Gain — Payweight: 1,499 lbs. \$100/Head Carcass Premium
Pen of Customer Steers Fed — 100% Choice and Prime — \$156/Head Carcass Premium

100% Schurrtop-sired cattle recently harvested (3,729 head averaged):

- 99% Choice or Higher
- 32% Prime
- Average Ribeye 14.4"
- 2.8 USDA Yield Grade

Thank you for your interest in our program-- whether you came to buy or are looking for next year we THANK YOU!

Why Buy from Schurrtop?

Extra Profitability. Because . . .

GENERATIONS UPON GENERATIONS

- 60+ years of performance testing bred into the cow herd.
- 37 years of Ultrasound carcass testing bred in.
- 50+ years of carcass testing bred in.
- 40+ years of feed efficiency testing bred in.
- 55+ years of AI to the breeds best sires.

THE COWHERD

- The mother of every bull is sound uddered, structurally correct, productive, maintenance and problem free. They work for us.
- Zero tolerance for time consuming management problems like poor udders, bad dispositions, etc.

THE PROGRAM

- The pedigrees are stacked with like genetics.
- You're not just getting a bull you're getting a program.

CARCASS PROVEN

- We have been feeding and harvesting customer cattle for years.
Our breeding decisions are greatly influenced by the performance data and carcass prices we receive.

THE PEOPLE

- The same people that sell the bulls also calve, feed, breed and manage the cattle everyday.
- We are a family operation in business to make our customers money.

TESTING

- We test our cattle against many other breeds and breeders at the Beef Empire Days and the Great Western Beef Expo for gain, feed efficiency, pay weight, carcass merit and profitability. Our cattle are consistently at the top.
- We feed both our own and our bull customers cattle and sell many of them on a grid to prove Schurrtop genetics excel from birth to the rail.

FEED EFFICIENCY

- We test for greater feed efficiency at the Beef Expo and at home. It is not so much the feed they eat, it's what they do with it, and the composition of the carcass produced.

SIRE SELECTION

- They have to be good, not just popular.
- We start by selecting the right bull then add the pedigree and numbers.
- Bulls must be total performance beef bulls with maternal and carcass merit. More muscle, gradeability and red meat yield.

CONFIDENCE

- We won't sell a bull that we wouldn't want to keep replacements from or feed his calves.

THE ONLY GOAL

- To make our customers more money with less labor and stress for them.
- To produce an end product that is efficiently produced, consistent and highly desirable for the consumer.

Insurance

The insurance companies that we have worked with the last few years have discontinued “loss of use” coverage.

With the reality that sometimes young bulls become injured during their first breeding season, we have worked to come up with a fair and reasonable way to share the risk with our bull customers. With customers that wanted the “loss of use” insurance we shared one-half the premium cost for coverage on the bulls to lower your risk. We have decided to continue sharing one-half the risk during this transitional period with the breeding guarantee described below.

Mortality insurance will still be available sale day through Liberty Mutual.

First Year Breeding, Loss Of Use Coverage

All bulls selling for \$3500 or more will be covered 50% by Schurrtop Angus & Charolais if they are injured during their first season and not able to return to service. Season is defined as: Upon delivery through the 60-day period following the first turnout of the bulls.

50% of the value of the injured bull, minus salvage value, will be given as credit in a future sale or toward a replacement bull if one is available. This guarantee and free delivery do not apply to the replacement bull. All injured bulls must be diagnosed by a veterinarian. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. All claims must be made by September 1, 2025.

Modified Suggested* Sale Terms and Conditions

American Angus Association • Effective February 18, 2009

Unless otherwise expressly stated in these sale terms and conditions or any other written agreement between the parties relating to the sale of Angus cattle under these sale terms and conditions, seller makes no other warranties, express or implied, including any implied warranty of merchantability or fitness for a particular purpose, even if such purpose is known to the parties.

The remedies provided in these sale terms and conditions are the exclusive remedies of the buyer, or any party claiming through the buyer, and under no circumstances will the seller be liable for any incidental, indirect, special, consequential, punitive or exemplary damages under any indemnity provision or otherwise.

TERMS OF SALE

Bidding

1. Each animal will be sold to the highest bidder. The person in charge will settle any disputes as to bids, and his decision on such matters will be final.

Announcements

1. If there is any inconsistency in the terms of any sale book, supplement sheet or day-of-sale announcement, (i) the day-of-sale announcement will control over both the supplement sheet and the sale book, and (ii) the supplement sheet will control over the sale book.

Cash Sale

1. All sales are for cash unless satisfactory credit arrangements, including any possible reservation of security interest by the vendor, have been made with the vendor prior to sale.

Buyer's risk

1. The risk of loss and injury of each animal passes to the buyer as soon as it is sold; but it is the obligation of the seller to ensure that animals are fed and cared for free of charge to the buyer until loaded for shipment or until the expiration of 48 hours after the sale, whichever occurs sooner.

Identification

1. The seller must ensure that each animal has a readable permanent identification mark (e.g., tattoo, hot-iron brand or freeze brand) corresponding to its registration.

GUARANTEES

Health

1. Unless otherwise announced, the seller guarantees that all animals are eligible for interstate shipment as required by federal regulations.

Pedigree

1. The seller guarantees to the buyer that the pedigree, performance data and individual data of the animal, as represented in any sales materials (including any sale book, supplement sheet or day-of-sale announcement), is accurate to the best of our knowledge.
2. The absence of any such designation on the pedigree of an animal, in a sale book, does not establish that the animal in question is not a carrier of any such genetic defect or genetic factor.
3. In those cases where a commonly understood nickname is used by the seller, the seller guarantees the pedigree of the animal based on the commonly understood nickname.

Breeding guarantees

1. The seller guarantees that all bulls are breeders, but only if such bulls are at least 12 months old at the time of sale and have not been allowed to run with the herd until at least 14 months of age. A bull that settles a cow by natural service and passes a fertility test made by competent veterinarians mutually agreed upon by the buyer and the seller, during any six-month period of trial (provided for in paragraph 2 of the section entitled "Options and privileges of return or adjustment") will be considered a breeder. Unless otherwise agreed by the buyer and the seller, the seller makes no guarantees with respect to the ability to freeze semen.
2. The seller guarantees that all animals are breeders, with the exception of: (a) calves under 12 months of age at the time of the sale; (b) animals shown after the sale has occurred (in such cases, the breeding guarantees, if any, will be those guarantees as are agreed upon between the seller and the buyer); (c) injury

or disease occurring after the sale; and (d) gross negligence or willful misconduct on the part of the buyer.

Options and privileges of return or adjustment

1. Except as provided in paragraph 2 of this section, all claims for adjustment or refund must be made in writing on or before the later of (i) six months after the sale date and (ii) the date on which the animal reaches 30 months of age.
2. All claims relating to the misrepresentation of service sire and all claims relating to paragraphs 10 and 11 of this section must be made in writing on or before the second anniversary of the date of sale.
3. If an animal is claimed to be a non-breeder, the animal may be returned to the seller if in good condition and complying with the health requirements of the seller's state. The seller is entitled to six months trial following the return of the animal in which to prove that the animal is a breeder. If at the end of the six-month period the seller is unable to prove the animal is a breeder, the seller must, at the option of the buyer, replace the animal with another of equal value or refund the purchase price. The return of the full purchase price will be deemed full satisfaction and settlement. Any expense incurred for transporting an animal claimed to be a non-breeder will be the responsibility of the buyer, except that the seller will be responsible for transportation costs in excess of the distance between the buyer's farm and the location where the sale took place. If the seller proves the animal to be a breeder, it will be the obligation of the buyer to take delivery of the animal and pay all transportation expenses.
4. White skin or hair must not be painted or altered. If such painting or alteration has occurred, the buyer may return the animal to the farm of the seller for a refund of the full purchase price or for another animal of equal value, whichever is acceptable to the buyer.
5. If an animal (including the offspring of a pregnant recipient) is sold and at a later date proves not to have been eligible for registration under the rules of the American Angus Association, the seller must make a satisfactory adjustment on the purchase price to the buyer, or at the option of the buyer, refund the purchase price upon the return of the animal to the farm of the seller.
6. If (i) an animal is sold (including the offspring of a pregnant recipient) and through DNA-marker-typing is proven to have incorrect parentage, as represented by the certificate of registration, and for which parentage can be determined, or (ii) the resulting calf of a pregnant recipient is not of the sex represented, the seller is obligated to make a satisfactory adjustment on the purchase price to the buyer or, at the buyer's option, refund the purchase price upon the return of the animal to the farm of the seller.
7. Except as provided in paragraphs 4 and 6 of this section, all transportation expenses incurred will be the responsibility of the buyer, except that the seller will be responsible for transportation costs in excess of the distance between the buyer's farm and the location where the sale took place.

*For voluntary consideration and use by sellers in their independent business judgement.
